

# ELLIDA™ -200 Multi-Role Logistics Ship

ELLIDA™ is a multi-role logistics ship, designed to provide the capabilities needed in future global operations. It offers the flexibility of a large hull, with internal vehicle and stowage decks, weather deck stowage and additional accommodation.

## Military systems

Armament: Provision for small calibre guns and close in weapon systems

Aircraft: Hangar for one large (16te) helicopter, two spot flight deck and temporary stowage for 3 additional helicopters.

Dock: Two spot dock for LCU or Caimen 90 Fast Landing Craft.

Additional Features: Space provision for large medical complex, NATO Role 2 Capability.

## Mission capability

Global strategic movement of vehicles and equipment.

Transportation of vehicles, troops and supplies. Logistics support to amphibious operations.

Replenishment at Sea, VERTREP, maintenance and support facilities.

Humanitarian assistance and disaster relief

Facilities to enable the rapid extraction of large numbers of entitled civilian persons, and provision of support to these civilians in onward transit to a safe port.

## Dimensions

Length, overall	200	m
Beam	30.5	m
Draught	Approx. 6	m

## Capacities & Cargo handling

Crew	68
Embarked Military Force	350

Ro-Ro capacity: approx 700 LIMs  
main deck vehicle stowage, 250 LIMs  
lower deck stowage or 5,000 m3
