Warship and Submarine Training Courses

Prepare for the next step
in your career

Whatever your role, you will benefit from our expert training and be given the opportunity to gain accreditation from our certified courses.

Prepare for the next step in your career . . .

We have been delivering certified courses to defence and defence industry for over 15 years.

For us, ensuring the industry remains well-trained and informed about the critical elements of ship and submarine design and management is crucial, now more than ever.

All our courses are created and presented by industry professionals, who are passionate and highly experienced in their field. This means that what you learn is both relevant and applicable to today's industry and the problems we face. We offer courses ranging from week-long virtual courses to shorter e-Learning courses.

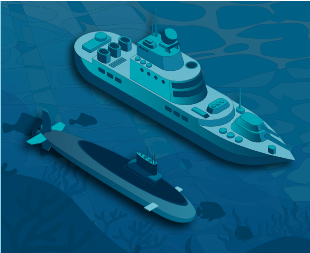

COVID caused us to pivot to full online delivery but now we have the best of both worlds. With restrictions easing we are able to offer a combined virtual and in-person delivery – paired with the best lecturers and online web-based materials and content. We have passed our savings on to you in our pricing for our virtual courses.

We have options to join us in location or via video conference from anywhere in the world.

Our week-long courses are designed to give a detailed insight into the topic, equipping you with the knowledge to understand and manage your chosen field. These courses have been certified by The Royal Institution of Naval Architects and Australia's Asset Institute.

Public Course Dates for 2023

Course Price
AUD\$5940 (inc)

Introduction to Fleet Lifecycle Management Course

Our Introduction to Fleet Lifecycle Management course covers all aspects of life cycle management. The modules provide detailed insight into Asset Management and its applications to naval ships and support systems in Defence's maritime environment.

General Course Details

Duration:
5 days.

Location:

Delivered online with the support of leading industry experts.

Who should attend:

Designed for engineers, technicians, and project managers but we can tailor delivery to individual needs.

Accreditation:

Our courses have been certified by the Royal Institute of Naval Architects and by Australia's Asset Institute.

What is included:

Live training with leading industry experts, all course materials sent to your door, and a BMT Professional Course Certificate.

Looking to upskill your entire team?

We offer corporate packages for all our courses. If you book for 10, you only pay for 8, this is our gift to you.

In addition, when you book our corporate package and get free access to our Warships 101 e-learning courses as a bonus with your 5-day course.

Our corporate packages allow you to split a 5-day course out over a fortnight or even a month. We work with you to tailor the best outcome.

Do you have a specific training need?

Ask us how we can incorporate the best modules for your training needs.
